<<PLEASE NOTE THAT NOT ALL COURSES LISTED HERE ARE OFFERED EVERY SESSION>>

Multi-week Courses

Email and Stuff. A new, beginners' course that teaches the keyboard layout, how to use a mouse, and how to use Microsoft Edge to navigate websites. Create new email messages, open, reply to, and forward messages you receive. Attach digital photos to your email message and view, download and save photos attached to messages. **Student needs access to an Internet connected device for practice.** Manual provided. **Meets 5 times.**

Basic Word Processing. Introduces basic word processing concepts and techniques using *WordPad*, which is already on your home computer. Open and modify documents, delete blocks of text, use bullets and numbering, insert pictures, create and format new documents. Manual provided. **Meets 3 times.**

Excel 2013 (spreadsheet). Gain the skills for navigating and entering data into an Excel workbook. Using a simple checkbook register model, learn to 1) Enter formulas that calculate results, 2) Manipulate rows and columns, and 3) Filter your data to show specific records. Manual provided. **Meets 3 times.**

Genealogy. This course provides a basic understanding of genealogy research. Learn about the basic forms, websites, and software that help you organize your information. Begin your family tree, learn to gather information, do additional research, document your information, and organize files to preserve your information. Manual provided. **Meets 6 times.**

Organize Your Stuff. Develop techniques and strategies for organizing files and folders on your computer using its built-in *File Explorer* features. View your files in different layouts; create, manipulate and organize folders for your files. Manual provided. **Meets 2 times.**

Photo Editing. Edit and save (store) digital photos using the free program *Paint.net*. Crop and straighten photos, eliminate red-eye, and add text. Adjust lighting, remove blemishes or other unwanted objects and correct other photo imperfections. Manual provided. **Meets 3 times.**

PowerPoint 2013 (presentations). Create slideshows of digital photos as well as presentations with enhanced graphics and text using *Microsoft PowerPoint*. Use themes, animations, transitions, and incorporate audio/video clips. Manual provided. **Meets 3 times.**

Word 2013 (word processing). Create, format, and edit documents using *Microsoft Word*. Do spelling and grammar checks, add bullets and numbering, insert digital pictures, and save and print documents. Manual provided. **Meets 3 times.**
